DANN·DORFMAN
HERRELL·SKILLMAN
INTELLECTUAL PROPERTY LAW

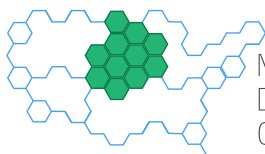

MORE THAN 40 YEARS PROVIDING TRUSTED LEGAL SERVICES

Dann Dorfman Herrell and Skillman specializes in the practice of Patent, Trademark, Copyright, and related Trade Secret and Unfair Competition Law. With many of our attorneys having advanced degrees, we have established a strong reputation for procuring strong IP rights that effectively protect our clients' interests. Our experience in providing reliable and effective services to our clients for over forty years has sharpened our focus on the ultimate goal of IP protection - a successful enterprise.

HELPING MAKE OUR CLIENTS' IDEAS A REALITY

Intellectual property is a business tool. At Dann Dorfman Herrell and Skillman, we understand that our clients want business solutions, not merely legal solutions. We look beyond the day-to-day practice of patent, trademark, and copyright law and focus on how to best utilize the intellectual property to advance the business interests of our clients, whether they are a startup company, an academic institution, or a global corporate leader. Our attorneys recognize that technical innovations, product logos, or original works of authorship are of little value unless they afford their owners a competitive advantage in the marketplace. When the legal protection for these innovations is developed with a well-conceived business strategy in mind, remarkable commercial growth opportunities often follow.

Discover why Dann Dorfman Herrell and Skillman should help you put your intellectual property to work.
